FRANKLIN CELEBRATES ITS 10th ANNIVERSARY AT THE GRAND PALAIS

The Franklin law firm celebrated its 10th anniversary at the Grand Palais.

For the occasion, the firm invited to a private viewing of the immensely popular Monet exhibition 700 guests, most of whom are prominent figures of the French and foreign business communities and long-standing clients of the firm.

Conceived in 2000 as an independent, client-focused alternative to large international networks, at a time when integrated (often) Anglo-Saxon law firms seemed to rule supreme, Franklin quickly positioned itself as a premier business law firm, assisting French and multinational corporations in numerous large-scale French or international transactions.

Over the years, the firm has built on this success to become a full-service law firm, covering all areas of business law, notably through the careful recruitment of highly-rated new partners from the best law firms in Paris.

Distinguished by numerous awards and consistently ranked among the 10 top French law firms selected by an international panel of general counsel in the context of the *International Legal Alliance Summit & Awards*, Franklin has succeeded, over the past decade, in establishing itself as one of the leading business law firms in France.
